

MITE TO SQUIRT TRANSITION CLINIC

Our Mite/ADM to Squirt transition program has been created specifically to have 1st year Squirt players properly educated, developed, and be competitive when they hit full ice for the first time.

As players transition from Mite/ADM cross-ice hockey to full ice Squirt, players will learn new concepts and skills to continue their development as a hockey player. To help players in their progression, we have designed this clinic to give players an opportunity to work on some shooting and passing techniques using the heavier black puck, with skating and shooting adjustments to the larger surfaces.

KNOWLEDGE - CONFIDENCE - STRENGTH

Registration is open to all players from the 2011 birth-year

March 21st, 23rd, 28th, 29th, 2020

All sessions are 6:00pm-7:00pm
